EDUCATION

B.Tech. in Computer Science

2022 - 2026

Vellore Institute Technology, Vellore

- Specialization: Data Science
- CGPA: 8.03

Senior Secondary Education

2019 – 2022

Delhi Public School, Bopal, Ahmedabad

- Class 12th (PCM) – 91.8%
- Class 10th – 92.4%

PROJECTS

WAFinity – Intelligent Web Application Firewall [Python, Machine Learning, NLP, Flask, Scikit-learn] ([Link](#))

- Designed a hybrid WAF system combining rule-based detection with machine learning Random Forest and NLP-based feature extraction to detect SQLi, XSS, CSRF and zero-day attacks in real time.
- Implemented a low-latency Flask-based proxy firewall with deep packet inspection, automated IP blocking, logging, and achieved 96.8% detection accuracy with ~72 ms average response time.

Fake News Detection Using BERT [Python, Hugging Face Transformers, Scikit-learn, Pandas, NumPy]

- Fine-tuned BERT on Kaggle dataset, achieving 92.3% accuracy and 91.15% F1-score
- Processed text data, performed hyperparameter tuning and validated performance against traditional ML models.

Chronic Kidney Disease Prediction Web App [Python, Flask, scikit-learn, HTML/CSS, Render] ([Link](#))

- Built a machine learning model to predict CKD based on medical input features & integrated it into a Flask web application
- Deployed the app on Render with a user-friendly interface for real-time predictions.

EXPERIENCE

Cognifyz Technologies

May 2025 – June 2025

DATA SCIENCE INTERN

Ahmedabad, Guj

- Worked on data-driven projects using Python, leveraging Pandas, Scikit-learn, Matplotlib, and geospatial tools.
- Skilled in data preprocessing, exploratory analysis, and building machine learning models.

Kuppismart Solutions Pvt Ltd.

June 2024- July 2024

UI/UX DESIGN INTERN

Hydrabad, AP

- Collaborated with stakeholders to gather requirements and design workflows for *Livestockify*, a poultry sector platform.
- Created wireframes and process flows using Figma, ensuring alignment with user and business needs.
- Assisted product and tech teams in enhancing cross-platform consistency and user experience.

SKILLS

Languages & Dev

Python, R, Java, SQL

Data & Tools

Pandas, NumPy, Scikit-learn, Excel, Power BI, Figma

EXTRACURRICULARS

- Ayuda NGO- Led initiatives in management, event operations, design, and communication for social projects
- JNJ Bhangra Dance Club- Actively participated in and managed college events, showcasing strong teamwork and event planning skills.
- Other Clubs: VIT E-CELL, THE AI&ML CLUB, IEEE
